

license plate bingo

License plate bingo can keep a car full of kids occupied for a long time. The idea is to be the first to see every different license plate on the list. There are a few variations you could play. You could have to see a license plate from every state (Victoria, Western Australia etc) and territory (ACT, NT). With all of the personalised plates around, you could do a game where you have to find plates of different colours (white, pink, black, blue etc.)
